Dear Mr. Martin:

Re: Request to Modify
NPDES General Permit No. ING040265
IDNR Permit No. S-0370
Sunrise Coal, LLC- Ace in the Hole Mine
720 E. County Road 750 S.
Clay City, Indiana
Clay County

Your NPDES permit Notice of Intent letter received on January 30, 2017, requesting modification of the above-referenced general permit coverage, has been reviewed. The materials request the following change to your coverage:

Existing **Outfall 004** (latitude 39°, 16', 39", longitude -87°, 05', 29.5", discharging to an unnamed tributary to Connelley Ditch) is to be dropped from coverage.

We have reviewed the NOI and have determined that the mining activities associated with the requests are not the result of any new or expanded permitted mining operations. Mining activity is a process of sequential coal removal and reclamation and as mining progresses and reclamation follows these activities will not result in any anticipated discharges to a receiving stream. We have determined that there will not be a new or increased loading of pollutants into the receiving stream(s), therefore the approval of this modification of coverage is in compliance with the antidegradation standards at 327 IAC 2-1.3.

The request has been processed in accordance with Section 402 and 405 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, et seq.), and IDEM's permitting authority under IC 13-15. Per your correspondence discharges from Outfall 004 will be routed to Outfall 001 temporarily until Outfall 004's basin is mined through. We have been in contact with representatives of the IDNR in Jasonville, Indiana who have confirmed this. Our office therefore concurs that request may be granted. Coverage for the facility will now include all outfalls listed on the first table of Attachment 1 to this correspondence.

The NPDES general permit coverage number assigned to this facility in the previous approval will continue to apply. Reporting is to be done using the federal Discharge Monitoring Report (DMR) form and the state Monthly Monitoring Report (MMR) form. The MMR form can be found on the internet at <http://www.in.gov/idem/cleanwater/2396.htm>. Both the state and federal forms need to be completed and submitted on a routine basis. Please note that IDEM

Mr. Lawrence D. Martin, CFO

will no longer accept paper DMR or MMR forms. All NPDES permit holders are required to submit their monitoring data to IDEM using NetDMR. Please contact Helen Demmings at (317) 232-8815 if you would like more information on NetDMR. Information is also available on our website at <http://IN.gov/idem/cleanwater/2422.htm>

This modification shall become effective on **April 1, 2017**, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under 327 IAC 15-7 for all remaining outfalls remains effective, and will expire on **December 31, 2017**. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that IDEM shall serve notice of its decision to accept your facility for coverage under the general permit in accordance with the requirements of 327 IAC 5-3-14. It should also be noted that any appeal must be filed under procedures outlined in IC 13-15-6, IC 4-21.5, and the enclosed Public Notice. The appeal must be initiated by filing a petition for administrative review with the Office of Environmental Adjudication (OEA) within fifteen (15) days of the emailing of an electronic copy of this letter or within eighteen (18) days of the mailing of this letter. A copy must also be served upon IDEM. Addresses are:

The Office of Environmental Adjudication will provide parties who request review of this approval with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

If you have any questions regarding this letter, please contact Ms. Sheri L. Jordan of our office at (317) 232-8703.

Sincerely,

PUBLIC NOTICE NO. 2017 – 3D -GP

DATE OF NOTICE: March 16, 2017

The Office of Water Quality approves the following for **NPDES GENERAL PERMIT** coverage.

MODIFICATION

SUNRISE COAL, LLC – ACE IN THE HOLE MINE, Permit No. ING040265, CLAY COUNTY, Clay City, IN. This modification is being issued because the facility is deleting 1outfall. The Notice of Intent (NOI) letter submitted complies with the requirements in 327 IAC 15-7, Facilities Engaged in Mining of Coal, Coal Processing and Reclamation Activities. Permit Writer: Sheri Jordan at 317/232-8703.

Notice of Right to Administrative Review

If you wish to challenge this permit, you must file a Petition for Administrative Review with the Office of Environmental Adjudication (OEA), and serve a copy of the petition upon IDEM. The requirements for filing a Petition for Administrative Review are found in IC 4-21.5-3-7, IC 13-15-6-1 and 315 IAC 1-3-2. A summary of the requirements of these laws is provided below.

A Petition for Administrative Review must be filed with the Office of Environmental Adjudication (OEA) within fifteen (15) days of the issuance of this notice (eighteen (18) days if you received this notice by U.S. Mail), and a copy must be served upon IDEM. Addresses are:

Director
Office of Environmental Adjudication
Indiana Government Center North
Room 501
100 North Senate Avenue
Indianapolis, Indiana 46204

Commissioner
Indiana Department of Environmental Management
Indiana Government Center North
Room 1301
100 North Senate Avenue
Indianapolis, Indiana 46204

The petition must contain the following information:

1. The name, address and telephone number of each petitioner.
2. A description of each petitioner's interest in the permit.
3. A statement of facts demonstrating that each petitioner is:
 - a. a person to whom the order is directed;
 - b. aggrieved or adversely affected by the permit; or
 - c. entitled to administrative review under any law.
4. The reasons for the request for administrative review.
5. The particular legal issues proposed for review.
6. The alleged environmental concerns or technical deficiencies of the permit.
7. The permit terms and conditions that the petitioner believes would be appropriate and would comply with the law.
8. The identity of any persons represented by the petitioner.
9. The identity of the person against whom administrative review is sought.
10. A copy of the permit that is the basis of the petition.
11. A statement identifying petitioner's attorney or other representative, if any.

Failure to meet the requirements of the law with respect to a Petition for Administrative Review may result in a waiver of your right to seek administrative review of the permit. Examples are:

1. Failure to file a Petition by the applicable deadline;
2. Failure to serve a copy of the Petition upon IDEM when it is filed; or
3. Failure to include the information required by law.

If you seek to have a permit stayed during the administrative review, you may need to file a Petition for a Stay of Effectiveness. The specific requirements for such a Petition can be found in 315 IAC 1-3-2 and 315 IAC 1-3-2.1.

Pursuant to IC 4-21.5-3-17, OEA will provide all parties with notice of any pre-hearing conferences, preliminary hearings, hearings, stays, or orders disposing of the review of this action. If you are entitled to notice under IC 4-21.5-3-5(b) and would like to obtain notices of any pre-hearing conferences, preliminary hearings, hearings, stays, or orders disposing of the review of this action without intervening in the proceeding you must submit a written request to OEA at the address above.

If you have procedural or scheduling questions regarding your Petition for Administrative Review you may contact the Office of Environmental Adjudication at (317) 232-8591 or see OEA's website at <http://www.in.gov/oea>.

V. RULE QUALIFICATION:
<p>The purpose of this rule is to regulate wastewater discharges from surface mining, underground mining, and reclamation projects which utilize sedimentation basin treatment for pit dewatering and surface run-off and to require best management practices for storm water run-off.</p> <p>Does this facility meet these requirements? (please check one) YES <input checked="" type="checkbox"/> NO <input type="checkbox"/></p> <p>Please provide a brief description of the facility operation that results in the discharge. You may attach additional sheets.</p> <p>The active outfall point 001A serves as a sedimentation basin to collect surface precipitation runoff from topsoil and subsoil piles as well as surface runoff from the area surrounding the Northwest Area of the Active pit.</p> <p>The active outfall 002A serves as a sedimentation basin to collect surface precipitation runoff from the vegetated and un-vegetated areas on the South End of the mining area.</p> <p>Active outfall 004A currently collects precipitation runoff from the coal yard, boxcut spoil pile, and surrounding areas East of South County Road 100 East. This Outfall is proposed to be removed from monitoring, as all water in this pond will be routed into Pond SB01 and thence discharged through Active Outfall 001A. Future Mining will then progress through this Pond SB04, and water will be routed accordingly.</p> <p>Outfall 005A is proposed to serve as a collection basin during mining to the south of the facility center. Mining has not progressed to this point and the Sediment Basin has not been constructed.</p>

VIII. TOPOGRAPHICAL MAP
<p>A topographical map must be submitted with this application. The map must include the following items:</p> <ul style="list-style-type: none"> (A) the location of the coal mining operation, including contiguous facility property lines, shown clearly and identified by name and by mark; (B) the location of each numbered outfall shown clearly and identified by number and by mark; (C) the receiving streams and tributaries to them that each outfall discharges to shown clearly and identified by name; (D) any existing permanent structures or roads in the area shown clearly and identified by name. <p>Please attach this completed map to the application and submit both together.</p>

IX. PROOF OF PUBLICATION

It is required that a public notice statement be published in a newspaper of largest circulation in the area where the discharge(s) will be occurring. This publication must be in the newspaper for a minimum of one day and must include the following language: (your facility name, address, address of the location of the discharging facility, and the streams receiving the discharge(s)) "is submitting a Notice of Intent letter to notify the Indiana Department of Environmental Management of our intent to comply with the requirement under 327 IAC 15-7 to discharge wastewater associated with the mining of coal, coal processing and /or reclamation activities. Any person aggrieved by this action may appeal in writing to the Environmental Law Judge of the Office of Environmental Adjudication for an adjudicatory hearing on the question of whether this facility should operate under this NPDES general permit rule. An appeal must be postmarked no later than fifteen (15) days from the date of this public notice. Such a written request for an adjudicatory hearing must:

- (A) state the name and address of the person making the request;
- (B) identify the interest of the person making the request;
